

Unshielded LAN Cable for Indore Installation U/UTP

Application

Indoor installation

Halogen-free

Outdoor installation

Cable for structured cable systems for indoor installation with a signal transmission frequency up to 100MHz (Cat.5e), or up to 250MHz (Cat.6).

Specifications

Electrical characteristics	Value
Number of pairs	25
Current-carrying conductor	soft cooper wire
Core diameter	up 0,48 to 0,51 mm
Twisted type	pairing
Minimum bending radius	55
Tensile strength, not less than, kN	0,4
Short-term crush test, kN/cm	40
Sheath type	PVC - sheath made of PVC
	LSZH - sheath from LSZH - Low Smoke Zero Halogen
Operating temperature, °C	- 40...+60 °C
Installation temperature, °C	- 10...+50 °C
Cable outer diameter max, mm	13,5
