

## Low-pair telephone cable MKPPCT

### Application

Water-resistant

Aerial

Outdoor installation

The cable is intended for suspension on overhead communication lines.

### Specifications

Electrical characteristics	Value
Number of pairs	5
Current-carrying conductor	soft cooper wire
Core diameter	up 0,4 to 0,5 ± 0,005 mm
Resistance of the conductive core of the cable, recalculated per 1 km of length and temperature 20°C, not more than Om/km	148
Resistance of the core insulation of cable, recalculated for 1 km of length and temperature 20°C, not less than MOhm * km	8 000
Sheath	PE, black color
Operating temperature, °C	- 40...+50 °C
Installation temperature, °C	- 10...+50 °C
Overall dimensions, thickness x height, mm	8,9x17,5
